When visually fishing for bedding bass, to be counted as a legal fish, all bass must be hooked inside the mouth and must be verified by your partner before being unhooked. In the PRO-AM format the co-angler is not allowed to fish from the front deck of the boat or operate the trolling motor. Boat operation in manner, which unnecessarily handicaps a partner or any other competitor, shall be prohibited. The owner and his participating team will assume all expenses incurred in the operation of the boat. No more fish than may be scored may be held in captivity at any time during competition hours. Fish shall not be mutilated or otherwise intentionally injured or mistreated. All fish shall be placed in containers supplied by the Tournament Committee for transport to the scoring area. The containers may be placed in landing nets for added strength. Water shall be added to reduce injury. All fish that are alive at the completion of the scoring procedure shall be returned to the water by tournament officials except that the requests of governmental, education and research agencies may be honored, and trophy fish may be returned to the participants who caught them when they request them for mounting and display. Any fish which does not meet the minimum acceptable length will be removed from the competitor's catch and the competitor will be assessed a one pound penalty for each short fish deducted from the total weight of his remaining legal fish.
